speed-mat®
MAT CUTTING SYSTEMS

The Speed-Mat Spirit is a state of the art automated mat cutting priced affordably for the custom picture framer. The Spirit will provide a major improvement in efficiency for cutting standard rectangles, ovals, circles and makes it easy to cut more complex shapes.

For production there is an option for a double clamp system.

The Spirit is controlled with a Pentium processor using Windows '95 based software. A micro step motor/driver system provides a cutting speed of 400mm/sec.

The cutting pressure on the single knife head is electronically controlled to provide smooth cuts on all shapes. A quick change knife cartridge minimizes down time for blade change.

Options

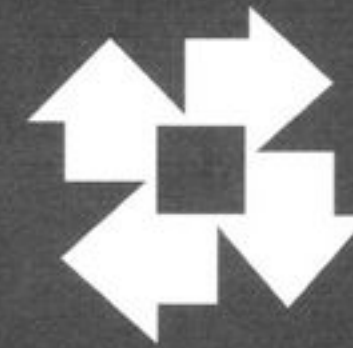

double clamp system
floor stand vertical
floor stand horizontal

Parts

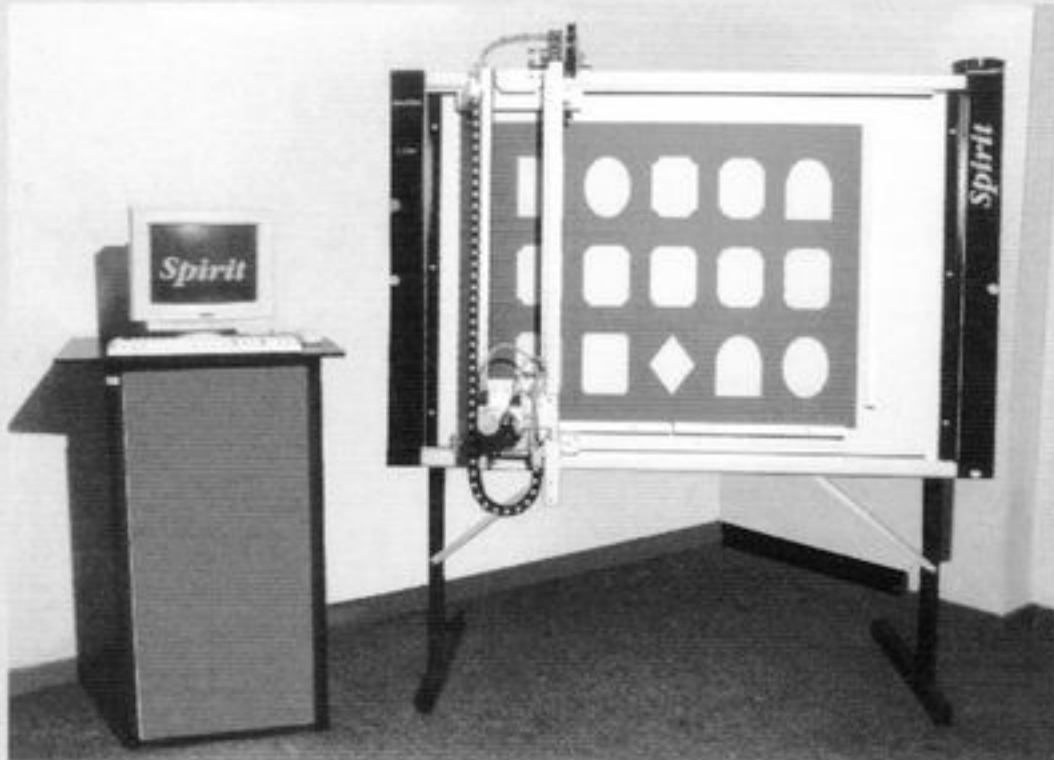

knife head 45°
blade pocket

Blades

449.2 box 500 blades
